Dr. George B. Kistiakowsky
Special Assistant to the President
for Science and Technology
The White House
Washington 25, D. C.

Dear George:

Reference is made to Jim Killian's letter of 25 May to the Director of Central Intelligence and Mr. Dulles' reply of 18 June 1959 in which he accepted responsibility for initiating steps to collect the Soviet ICBM information required by the special panel of the President's Scientific Advisory Committee. An inter-agency Task Force was established to study this problem and there is forwarded herewith a copy of the final report submitted by this group. It would be very helpful to have your comments on the recommendations of the report and any suggestions toward implementation that you feel might be helpful or appropriate.

Sincerely,
